RE: Docket # WT 02-100

Dear Sir or Madam:

The Village of Schaumburg would like to express its support for Anne Arundel County in the FCC proceeding listed above. The County's enactment of an ordinance which requires cellular carriers to certify their operations will not interfere with public safety radio communications, and in the event the cellular carriers fail to do so, the County is authorized to revoke the zoning certificates for the use of the facility are a valid use of the County zoning powers. The public health, welfare and safety of individuals may be severely compromised if public safety radio communications are obstructed. We would strongly urge the FCC to deny Cingular's challenge.

Very truly yours,

VILLAGE OF SCHAUMBURG

Rita Elsner  
Assistant Village Attorney
